SNOW ANGELS

On Sunday morning after two days of snow and two days of clean-up, somehow the “joy” of a snow storm turned into a huge chore. The wind howling, trees swaying to the point of breaking, and continually mopping the kitchen floor, I was done!

Monday morning driving to school it was amazing to see just how much of this snowy gift was on the ground. The front of our school was thick with what seemed to be a sea of white. My thought – would it be gone by Easter?

At about 11:00, I heard small voices outside my window filled with excitement! To my delight I saw our Pre-Schoolers in a rainbow of different colored snowsuits, all trying to run through the deep snow, falling, laughing, and making snow angels. The wonder of snow to a small child is a gift from God.

A NOTE FROM THE NURSE

The cold and flu season is in full force. Please be careful to monitor your child/ren for symptoms of illness. Please keep them home if they have been unable to sleep, have a fever, need to use a bathroom frequently, or are experiencing symptoms of flu. As always students with a fever should not return to school until they have been fever free, without the use of Tylenol or Motrin products, for a full 24 hours. This will greatly aid in the prevention of illness in the school and decrease the spread of existing illness. Thank you for your help in this matter.
